

ARGUS CHARTER BROKER RATINGS

FLY CONFIDENTLY WITH ARGUS RATED CHARTER BROKERS AROUND THE GLOBE.

The absence of global regulation or formal licensing of air charter brokers allows for unfair competition from companies or individuals who conduct business without regard for what is best for their customer or charter operator. The ARGUS Charter Broker Program provides an unbiased, independent, and highly trusted method for professional charter brokers to prove their compliance with industry best practices and applicable requirements—translating into the confidence that charter customers and commercial aircraft operators are looking for when choosing an air charter broker.
